Practical Chemistry

"Young gentlemen," said the lecturer in chemistry, "coal exposed to the elements loses 10 per cent of its weight and power. This is due to the action of the alkali constituents of—"

"But, what if there is a sleeping dog near the coal, Professor?"

"None of your levity, young man. This is a serious matter."

"That's what-did thought when 72 per cent of our coal pile disappeared during three nights of exposure. Then he asked my advice as a student of chemistry, and I told him to buy a

dog. He bought a dog, with large size teeth, and now we don't lose 1 per cent of our coal a month. That's practical chemistry."—The Canadian Purchaser.

"A pity to see all that going to waste!" said one tourist to another, as they stood near a waterfall in the mountains.

The other cordially agreed with him, and added: "Like me, you are, I suppose, a civil engineer."

"Oh, no," said the first one, "I'm in the dairy industry."

MINING INSTITUTE HOLD INTERESTING MEETING

A meeting of the Rocky Mountain Branch, Canadian Institute of Mining & Metallurgy, was held in the Greenhill hotel, Blairmore, on Friday last, October 20th. Some thirty members in all were in attendance, among which were outside members as follows:

Messrs. James Dickson, Victoria, B. C.; Robt. Strachan, J. A. McDonald, H. E. Mair and B. Caulfield, Fernie, B.C.; C. Stubbs, Michel, B.C.; Robt. Livingstone, J. B. de Hart and Wm. Meldrum, Lethbridge, Alberta, and J. A. D'Wolfe, Calgary Alberta.

Mr. B. Caulfield, superintendent of the Cowi's Nest Pass Coal Company mines at Coal Creek, B.C., read a paper entitled "Outbursts of Gas and Coal in No. 1 East Mine, Coal Creek." Plans of the mine were on exhibit at the time this paper was read, and a hearty vote of thanks was accorded Mr. Caulfield for his very able and instructive paper, which brought forth some very interesting and constructive discussion.

The next meeting of the above Branch will be held in Fernie on or about the 28th of November, when G. C. Mackenzie, of Montreal, secretary-treasurer of the C.I.M. & M., will attend the meeting.

Papers being prepared for the prizes offered by Mr. W. R. Wilson, of Fernie, B.C., open to members of Rocky Mountain Branch, must be in the hands of the secretary, Mr. R. L. Thorne, Calgary, Alberta, not later than May 1st, 1929. For further particulars see the Institute bulletins.

K. of P. BID REY. BRO. NOBBS FAREWELL ON TUESDAY

A large gathering of the Knights of Pythias, including visiting brothers from Wayne and other lodges in the province, assembled in the K.P. hall on Tuesday to bid farewell to the Rev. H. L. Nobbs, who is a member of Coal City No. 37. Bro. Rev. A. Bell, of Wayne, who was called on to deliver the valedictory address on behalf of the Knights of Pythias in the valley, paid great tribute to the work that Bro. Nobbs had accomplished, both in the interest of Pythianism and community service at large. Bro. Nobbs responded in his usual eloquent manner and left a token of his affection for the lodge by presenting a new bible for use in the lodge work. Bro. A. T. Rosaine, on behalf of the lodge, thanked Bro. Nobbs and gave a splendid address, basing his remarks on the respective values of the bible and the ritual in lodge work.—Drumheller Mail.

OLD TIMER OF DISTRICT VISITS FORMER FRIENDS

Fred J. Smyth, an old timer of this district, spent a couple of days this week, calling on old friends. Mr. Smyth is well known through this district and for several years conducted a newspaper at Moyie when that town was on the map as a mining centre. Since leaving this part of the country, Mr. Smyth located in the Boundary country, where he worked on the Phoenix Pioneer and later took charge of the Princeton Star, which paper he managed for six years. He still likes the lure of the old print shop and recently has been working on the Nelson News. Mr. Smyth recalls many pleasant recollections of the early days of Kimberley and besides having to "stick type" for his paper, managed to find time to play the violin and played for several dances in this town.—Kimberley Press.

Gordon Steeves: "Take this package to Mr. Crummach. Remember the name, it rhymes with stomach." Billy (half an hour later): "I could not find Mr. Kelly."

W. SEMELUK IS KILLED IN MCGILLIVRAY MINE

A miner named W. Semeluk was the victim of an accident in the McGillivray Creek Coal & Coke Company's No. 2 mine at Coleman on Tuesday morning, dying shortly afterwards from the result of shock and asphyxiated blood. Semeluk was caught by a cave-in, which almost completely buried him.

He is survived by his wife and one child.

An inquest was held at Coleman on Tuesday afternoon, presided over by Coroner A. M. Morrison. The following jury was impanelled: Steve Klecko, foreman; A. N. O'Neill, D. Randall, Bert Westworth, Val. Cabino and William Evans. The jury retired at 5:45 and returned at 6:05 with the following verdict:

"That the said William Semeluk came to his death by a fall of rock in the main slope opposite No. 13 room of the McGillivray mine.

"That the cave occurred at 11 a.m. and that the deceased died at 3.20 p.m. at the Coleman Miners' hospital.

"We find that there is no blame to be attached to any person, and would recommend that in future, trips be not allowed to run in a slope while repair work on caves and timbering is being done."

COLEMAN ORCHESTRA ASSN. RENDERS FINE CONCERT

The Coleman Amateur Orchestra Association rendered a very pleasing concert at the Orpheum theatre on Sunday last. As no admission fee was charged, even the Scotch folks were there at the opening hour—8.30—and soon the building was filled to capacity.

The programme was in charge of Mr. Moses Johnson, as chairman, and consisted of selections by the new Coleman orchestra, under the able leadership of Mr. J. Fulton, and a number of solos by Mr. Edgar Rhys, of Hillcrest. Every item was well rendered and elicited applause and encores. Musical items were in part as follows:

March—"Under the Double Eagle," by Wagner.

Overture—"Fair Maid of Perth," by Widdell.

Value—"Emerald," by Sereby.

March—"Les Petite Pierrots," by Bosc.

Selection—"Carmen," by Biscot.

Gavotte—"Souvenir," by Heresberg.

Caprice—"Dance of the Crickets," by Sereby.

March Finale—"Stormy Point," by Laurendau.

Vocal solos by Mr. Rhys.

A collection was taken at the door to help defray expenses.

The public appreciate very much the appearance locally of both the new orchestra and Mr. Edgar Rhys, and trust that they will reappear here before long.

HOME BANK PAYS FURTHER DIVIDEND

Cheques to the amount of 35 per cent of the original deposits are being mailed daily to those depositors in the Home Bank of Canada who had on deposit less than \$500 before it failed, it was announced from the liquidators at Toronto on October 26th. The cheques are being mailed from the office of I. E. Weldon, liquidator for the bank.

TRAGEDY'S RECIPE

Take one reckless, natural-born fool, two or three big drinks of liquor and a fast, high-powered motor car. Soak the fool well in liquor, place in car and let him go. After due time, remove from the wreckage, place in black, satin-lined box and garnish with flowers.

WORLD HAPPENINGS BRIEFLY TOLD

The radio audience of the United States is 41,403,496, according to a survey made public by the National Broadcasting Company.

An airport for Halifax to be equipped by the government is planned as a result of the visit of Major Tudhope, inspector of air routes for the Department of Civil Aviation.

The small one-room building, formerly used as an office by Luther Burbank, plant wizard, will be taken to Detroit as an exhibit in the Ford historical museum.

A movement is now under way in Turkey to abolish the title of "Pasha." Originally a military honor, the title is now granted to persons of high rank.

More than 7,000 pieces of mail have been received at the New York post office for mailing with the Graf Zeppelin on its return flight. The fee is \$1 for letters, and fifty cents for postcards.

Leong Ying, Chinese awaiting execution at San Quentin prison for the murder of ten of his countrymen in the rice fields near Fairfield, Zolono County, was found dead in his cell in condemned row.

There will be no changes in the Ontario liquor control act at the next session of the legislature, Hon. W. H. Price, attorney-general, declared, commenting on reports that the act would be amended.

The first regular through air mail from White Horse to Dawson left White Horse recently. Captain T. G. Stephens hopped off with the Fairchild plane now in the service of the Greenfield and Pickering Royal Mail Line, with 650 pounds of first class mail for Dawson.

A Wonderful Chance

Minister: I wish to announce that on Wednesday evening the Ladies' Aid will have a rummage sale. This is a chance for all the ladies of the congregation to get rid of anything that is not worth keeping, but is too good to be thrown away. Don't forget to bring your husbands.

Man (just acquitted, to counsel): "Thanks very much. What on earth should I have done without you?"
Counsel: "About five years."

Monaco was an independent principality for 800 years until the reigning prince was dispossessed by the French Revolution.

Canadian Club Activities

Extension of Speakers' Itineraries Is Planned At Ottawa Meeting

Extension of speakers' itineraries for Canadian clubs, enlargement of the Canadian Club Magazine, radio programmes, and organization policy were discussed at Ottawa, at the first meeting this autumn of the executive committee of the Association of Canadian Clubs. C. G. Cowan, of Ottawa, was re-elected chairman of the executive.

Miss Katherine Evans, formerly of Winnipeg, was appointed to the permanent staff of the association. She is a daughter of W. Sanford Evans, M.L.A., one of the founders of the Canadian Club movement.

The executive issued instructions to the national office to arrange 1,000 meetings for the 120 Canadian clubs in the Dominion and discussed the use of the radio for broadcasting Canadian club addresses and concerts. A National Canadian Club Radio committee will be appointed at the next executive meeting to make arrangements for the broadcasting.

London Solves Garage Problem

Cars Are Sunk Into Concrete Fit In Garden

To sink a car underground and make it reappear, when wanted, by pressing a button, is the latest contribution to the garaging problem. Many even of the post-war houses in London, have not "reticent" space to erect a garage, and "building-line" regulations prevent structures being put up in the front garden. The new invention overcomes these difficulties. A concrete pit is sunk in the desired position, and machinery is installed for raising or lowering a platform carrying the motor car. A canopy is fitted to the platform, so that when it is sunk to the level of the ground it forms a weather-proof shelter for the garage. The device, it is claimed, is both burglar-proof and foolproof, the machinery being operated from inside the house by simple control push buttons.

Maria: "If you could have two wishes, what would they be?"
Viola: "Well, I'd wish for a husband."
Maria: "That's one."
Viola: "And then I'd save the other till I saw how he turned out."

"Daddy, what is dew?" asked Bobby.
"The rent, the note at the bank and the instalment on my car," growled his dad.

Factories On the Prairie

Western Canada Becoming An Attractive Field For Industrial Enterprises

Factories are beginning to dot the prairies of Western Canada. The process of industrialization which has gone on in other lands is noticeable in Manitoba, Saskatchewan, and Alberta. In these provinces, usually regarded as purely agricultural, there are now 2,210 factories, with an invested capital of \$233,457,270. The employees number 36,436; the annual wage bill is \$46,170,049, and the value of manufactured products \$163,252,180.

Manitoba leads the three prairie provinces in the volume of its manufacturing industry, with an annual output of \$122,718,452. Alberta follows with \$83,425,631, and Saskatchewan is third with \$47,108,097.

Flour mills contribute a large share of the total production, with an annual value of \$51,113,136. Slaughtering and meat packing follows with \$33,045,850. Butter and cheese account for \$23,432,378. These industries are the natural outcome of farm production. More remarkable are items like these: Railway rolling stock, \$10,286,727; electric light and power, \$12,202,168; bags, cotton and jute, \$5,077,484; petroleum products, \$8,424,434.

With increasing prosperity and increasing farm production Western Canada, in the figures disclose, is becoming an attractive field for industrial enterprise.

Prove It For Yourself

Write down the number of your living brothers and sisters. Multiply it by two. Add three. Multiply the result by five. Add the number of living sisters. Multiply the result by ten. Add the number of dead brothers and sisters. Subtract one hundred and fifty from the result. The right figure will be the number of deaths, the middle figure the number of living sisters, and the left hand figures the number of living brothers.

He—I've come to a conclusion.
She—What is it?
"I realized today that I have been a bachelor for 38 years, and—"
"Oh, Jack, this is—"
"And I decided I'd had a jolly good time and that I'd keep it on."

SUNDAY SCHOOL LESSON

NOVEMBER 4

WORLD'S TEMPERANCE SUNDAY

Golden Text: "Love worketh no ill to his neighbor; love therefore is the fulfillment of the law."—Romans 13:10.
Lesson: Romans 13:1-14.
Devotional Reading: Psalm 15.

Explanations and Comments

Obedience To Civil Authority is Christian Duty, verses 1-7.—"Is it lawful to give tribute to Caesar, or not?" was the burning question which the Pharisees brought to Jesus, and you recall how He answered, "Render unto Caesar the things that are Caesar's, and unto God the things that are God's." A great part of the Jews were always questioning the lawfulness of paying taxes and of recognizing the authority of the Roman Government. The Jews of Rome had been especially turbulent, and of this Paul must have heard many accounts from Priscilla and Aquila, who had been forced to leave Rome on account of the trouble. In writing to the Romans, therefore, Paul was naturally led to take up the question of the Christian's relation to the civil authority.

Let every one be in subjection to the higher powers—those in authority, the civil rulers, he counseled, and giving means of two clauses, one negative and the other positive, he asserted that the fact of the authority being established argues that it was ordained of God.

The Roman Empire maintained law and order, protected life and property, and was on the whole, as Paul believed, a beneficent power. Nero, the reigning emperor, was, it is true, a dissolute young man who often arbitrarily did as he pleased with the lives of his subjects, but the time Paul was writing, persecution of the Christians had come from other Jews from popular riots, and not from the Roman Government. At Ephesus (Acts 19), Thessalonica (Acts 17), Corinth (Acts 18), and at Ephesus (Acts 19), Paul found the Roman officials a restraining power to his persecutors. Noteworthy is it, that after Paul had appealed to Rome and had been kept in confinement for some time without trial, he wrote to Timothy, 1 Tim. 2:1, 2: "I exhort therefore, first of all, that supplications, prayers, intercessions, thanksgivings be made for all men, for kings, and for all that are in high places, that we may lead a tranquil and quiet life in all godliness and gravity."

"If our laws are not Christian, then it is our business to make them Christian; if those in authority do not represent Christian ideals, we are not to do their bidding, but to secure legislators and governors whose ideals are Christian. We are more fortunate than those to whom the apostle wrote; we have some say about the laws which are to be enacted and the officials who execute them."—Galen Glenn Atkins.

Recipes For This Week

(By Betty Barclay)

SIRLOIN AND BACON SURPRISE

- 1 cup bread crumbs.
- 1/2 cup evaporated milk diluted with 1/4 cup water.
- 1 egg.
- 1 lb. chopped sirloin steak.
- 3 tablespoons lemon juice.
- 1 teaspoon salt.
- 1-3 cup grated cheese.
- 1 tablespoon chopped pimiento.
- 2 tablespoons chopped green pepper.
- 6 green olives.
- Bacon slices.

Soak bread in diluted milk five minutes. Add slightly beaten egg, then mix all together. Form into balls. Roll each in a slice of bacon and bake in a moderate oven half an hour. Yield: 5 servings.

ROLLED FRUIT WAFERS

- 1/2 cup butter.
 - 1 cup sugar.
 - Grated rind 1 orange.
 - 1 teaspoon soda.
 - 1 tablespoon cold water.
 - 1/2 cup orange juice.
 - 2 cups flour.
- Cream butter; gradually add sugar and orange rind, beating until light; dissolve soda in cold water, add to orange juice, then add alternately with flour, to first mixture. Spread mixture on well-buttered sheet in the thinnest possible layer, and bake in a moderate oven. When baked, cut in squares; quickly roll each square, while hot, over handle of a wren spoon, and arrange on a dolly-covered plate.

Importing Fewer Potatoes

According to statistics from Washington, Canada's importations of American potatoes have declined from 518,753 bushels in 1924, to 470,500 bushels in 1927, owing largely to the increasing production of potatoes in the Dominion.

Conveys Mail Underground

The railway that runs beneath London, a distance of six and a half miles, and conveys letters and parcels between Whitechapel and Farringdon, gives a service of about 850 journeys a day at an average of 20 miles an hour.

CUTICURA

Promotes Loveliness Of Skin And Hair

Daily use of the Soap, assisted by the Ointment when required, keeps the skin fresh and clear, and the hair healthy and glossy. They are ideal for the toilet, as is also the smooth, cooling, fragrant Cuticura Talcum.

ONE-DISH DINNER

In many families it is a problem to serve up a simple meal on one course. Here is a dish that will please a family of six, besides having the indispensable elements of nourishment:

- 2 cups cooked macaroni.
- 1 cup cooked carrots (diced).
- 2 tablespoons grated onion.
- 2 tablespoons chopped parsley.
- 2 tablespoons chopped fresh red pepper.
- 1 cup chopped ham.
- 6 tablespoons buttered crumbs.
- 1 cup Borden's St. Charles Milk.
- 1 cup water.
- 2 tablespoons butter.
- 2 tablespoons flour.
- 1 teaspoon salt.
- 1/2 teaspoon paprika.

Cook macaroni in boiling salted water 35 minutes. Make a white sauce of butter, flour, milk, water, salt, paprika. Place a layer of macaroni in a well-greased baking dish. Sprinkle with ham, carrots and seasonings. Repeat until all are used. Four over all the white sauce. Cover top with bread crumbs and bake in a moderate oven for 40 minutes.

Dog Beats Swimming Record

Swimming 158 miles from Albany to New York, in 44 hours 52 minutes, a German shepherd dog, bettered man's record for the swim by about five hours. The dog swam two hours at a stretch and, like other swimmers was coated in grease.

A University of Chicago professor invited to address a club meeting, chose as his subject "The Need of Education." The following day a newspaper headline reported "Professor's Speech Shows Need of Education."

FIREPROOF Farm Construction

Gyproc Fireproof Wallboard is used in the building of elaborate country homes equally as much as for garages, grain bins, poultry houses and barns. For repairs and alterations — for remodelling — for partitioning off extra rooms — it is the most economical and satisfactory wallboard on the market.

Gyproc protects from cold, heat, fire, sound and vermin — yet costs less than materials which do none of these things. Quick and easy to apply. It can neither crack, warp, bulge or shrink. By filling the joints with Gyproc Joint Filler you get a smooth, flat, air-tight surface through which fire, heat, cold and sound cannot penetrate.

Gyproc comes in broad, light, ceiling-high sheets of gypsum rock. Takes any decoration — and is especially suitable for Alabaster. Fud saved by the insulating qualities of Gyproc will alone pay for the cost within a few months.

Clip and fill in coupon for interesting free booklet.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective in an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting acid excess. Each bottle contains full directions—any drugstore.

THE CRIMSON WEST

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

CHAPTER IV—Continued.

"Pretty near got 'im that time, Donnie!" cried Andy gleefully. "If you see 'im in that jaw off 'is shoulder, send in your right. Andy's hands were shaking with excitement, while Donald was cool and collected. "Let me go after him, Andy," he begged; "I can whip him at his own game."

"No, no!" admonished Andy, "keep on as you are. Don't try to swap punches with 'im!"

Garrieau's seconds were working over him feverishly. Pursell leaned over the heavily-breathing champion, his evil side kick with apprehension. "What'd I tell yer?" he exclaimed. "They've stuck a ringer in on us; dat feller ain't no amachoo! If he beats yer we're both hum! Foul him dis round, for de!" he finished with a savage oath.

At the beginning of the third round Garrieau charged his elusive adversary like a mad bull. Donald easily side-stepped him and he plunged into the ropes. As he rebounded, Donald landed a left and danced safely away without reprisal.

"You can do pretty footwork," marveled the champion with a look of Simian ferocity. "But I'll get you—you!" There followed a burst of wild cursing. He tried to rush Donald to the ropes, feinted for the wind, and let loose a powerful right for the jaw. Paying no attention to the ropes, Donald ducked the blow and countering, shot his left to his opponent's mid-section. The champion grunted aloud, fell into clinch, and hung on grimly. The referee cried

them apart. Again the crowd came to their feet to shout in a frenzy of excitement.

Garrieau fell into a clinch, then wrestled about until he placed his opponent. Between himself and the referee, he loosed his right in a terrific upper-cut that missed, but his left smashed with fearful force to Donald's groin the most brutal foul that can be delivered. The referee did not see the blow.

Donald's nerves quivered with agony. A wave of torment and the awful nausea that follows such a blow swept through him. His face writhing with anguish, his gloved hand clutching his groin, he crashed forward on his face. His body twitched for a moment, then lay still.

The crowd came to their feet and many moved toward the exits. Another victim, they thought, to the champion's terrible punch. A number at the ringside, who had witnessed the foul blow, stood upon their seats and screamed denunciations at the referee.

The referee stood with one hand on Garrieau's massive chest. The latter was hastily straining forward while the fatal seconds were tolled off.

The roar of the crowd came to Donald's ears like the dash of waves on a distant shore. At the count of five his body quivered. At the count of eight, his jaw sagging, his face distorted, he struggled to his knees. He saw Andy's agonised face as through a fog and heard his desperate cry of appeal.

"Up, Donnie! Up!" At the count of nine Donald's be-muddled muscles answered the call of his brain. With tremendous effort he staggered to his feet and wound his arms about his face. The crowd yelped themselves hoarse in tribute to his courage.

Garrieau was upon him with a growl like a wild beast. Donald stood in the centre of the ring reeling drunkenly. Garrieau shot a terrific right for Donald's wind that struck his weakly protecting elbow. The impact carried him to the ropes, and he fell forward to his knees. Again the referee's arm rose and fell as he counted the seconds. Again Donald tottered to his feet to meet a fusillade of short-arm jolts that pierced his guard and sent him staggering.

The gong rang. With body swaying unsteadily and legs wavering, Donald walked to his corner and sank down wearily. What a blessed relief to lie and relax! His head felt leaden and there was a ringing in his ears.

His seconds worked over him in furious haste. Andy knew all the tricks of resuscitation: the upward sweep of hand on the midriff that brings the big nerve centre to life; the quick raising of the chest that brings air to the remote corners of the lungs. With a sudden choking in his throat, the little Australian realized that this boy was very dear to him. A prayer on his lips, his hands trembling, but sure and deft, he strove to restore the shattered nerves.

The colour came slowly to Donald's cheeks and the haze cleared away as the cold water was showered upon him. He felt his strength returning. A long deep breath and he was himself again. He looked across the ring at Garrieau, whose vulpine-like manager was leaning over him with an exultant look on his face. This brute had deliberately fouled him. A cold and terrible rage swept through every fibre of Donald's being. He had demeaned himself by entering the prize ring. This was bad enough; but to lose the battle!—Never! He looked for his friends. Their faces, he saw, were tense and full of misery.

"Andy, I'm going after him," he declared in a hard voice. Andy was about to remonstrate, but he caught a flash of the hard light in Donald's eyes, and the words died on his lips. He hesitated. Maybe he should have let Donald take the aggressive from the start.

"Are you strong enough, Donnie?" Donald's eyes held a dull glow. "Yes!" he grinned.

Andy patted his arm as the gong rang. "Give 'im 'til, Donnie!" And then added reverently: "May God give 'im strength."

Donald shot from his corner as though thrown from a catapult to meet Garrieau before he was fairly out of his chair. The spectators held their breath. Was this the man who a minute before had walked staggering and beaten to his chair? When the referee pried the fighters apart after a fierce mix-up in the champion's corner, a puffed eye and a bloody face showed that Garrieau had absorbed severe punishment. Donald was everywhere, dancing in for a fierce rally and out-again, always, without a return.

The arena fairly rocked to the cheers of the crowd as Donald stood in the centre of the ring and exchanged punches with the champion. Head to head they stood while Donald's arms worked with such lightning speed that the champion's blows were smothered. And, marvel or marvels, the champion was giving ground. The pursued had become pursuer. The tide had turned. With his arms wound about his face the champion retreated. As he essayed a head, Donald's fist smote his face before he could again cover up. Following relentlessly, Donald penetrated his opponent's guard with rights and lefts until the champion's face was a smear of red.

A bedlam of sound came from the audience as they stood on their seats and roared their admiration for the challenger's wonderful exhibition. Andy, his face set, his eyes bulging, clung to the corner of the ring.

Garrieau dove heavily at his elusive foe and missed. The impetuous swung him to one side. For an instant his chin was without the protecting shelter of his shoulder. With a bewildering swift move Donald stepped forward, pivoted on his toes, and with the full weight of his powerful young body behind it, he whipped his right to the champion's unprotected jaw. Pip! Garrieau fell upon his face and sprawled like a baboon on the floor. Donald walked to his corner, thrust his gloved hands towards Andy, who stood as though paralyzed, and said: "Take them off, Andy!" His voice was audible throughout the arena. The referee rushed to Donald's side and raised his arm aloft in token of victory.

With a roar the crowd came to its senses to realize that the fight was over. Garrieau's manager broke loose, struggling mass of humanity surged into the ring. Every man wanted to shake hands with the new champion. Garrieau, the possessor of the "punch" they had so much admired, was forgotten. The king is dead long live the king! Such is life, especially in the boxing game!

CHAPTER V.

With much difficulty Donald and his friends forced their way through the cheering throng to the dressing-room. Weak and tired, Donald lay on a cot, while his handlers gently managed his sore body. Andy moved to the cot and stood looking down on his protégé.

"Donald opened his eyes. "Hello, Andy," he smiled weakly. "Hello, Donald," said Andy huskily, as he patted Donald's dark head.

Donald's hand stole out to meet the warm clasp of his friend.

"Some little fight," said Andy, summoning a smile.

"Not bad," agreed Donald.

Gillis pulled his hat 'brim down over his eyes to hide his emotion.

"I've a good mind to go out and give that brute another licking," he growled.

One of the promoters thrust his head through the door. "Come and get your dough!" he shouted.

"Strike me lucky!" returned Andy, "those words 'ave a pleasant sound."

SUMMER COMPLAINT

Nearly Lost Her Little Girl

Mrs. Theodore Hovet, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 50 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Badminton players find a drink of hot tea a great benefit after a strenuous game. In leading Badminton clubs of Canada, Red Rose Tea is a great favorite. No other tea offers such brisk, zesty flavor and rich quality. Put up only in bright, clean aluminum packages. NEW

He picked up a small handbag and left the room. In a few moments he returned, his face beaming. He tapped the stomach. "Chuck full," he said happily.

At the gymnasium they gathered in Andy's room, and for the first time Donald told them of the attempted "frame-up" proposed by Garrieau's manager. Douglas stood across the room and gripped Donald's hand. "Not a word was uttered by anyone, but the silence was more eloquent than speech.

They were all in a happy mood after the prolonged strain of the day. Andy was in particularly high spirits. "Gentlemen," he began grandly, "I've before me on the table 'ere a most wonderful little 'nading. All it 'ad in it this morning was a dirty collar and a shirt stud. Now," making a dramatic gesture, "it's the bloomin' 'orn of pleasure." He turned the match up, down and a mass of bills, coins and cheques fell upon the table.

"Here, Gillis," cried Andy, as he selected a bill, "will you go out and get some champagne, and when you goes in the bar buy a drink for the 'nading. It's the bloomin' 'orn of pleasure." He turned the match up, down and a mass of bills, coins and cheques fell upon the table.

"Here, Gillis," cried Andy, as he selected a bill, "will you go out and get some champagne, and when you goes in the bar buy a drink for the 'nading. It's the bloomin' 'orn of pleasure." He turned the match up, down and a mass of bills, coins and cheques fell upon the table.

"What!" ejaculated Donald. He was astounded. He had given the size of the purse little thought. "I had no idea it would be so much," he said in a surprised tone.

"Oh, a hundred gylms is a great gylm," said Andy.

"Yes," remarked Douglas, "but after seeing that bout today I'm going to take up liddlywinks instead; it's not so rough."

When the big man returned with the wine Donald turned to Douglas. "It seems that you and Gillis are old friends."

"Why, yes, Jack's been one of Dad's right-hand men for—how long, Jack?"

"About ten years," replied Gillis.

"And I'm equally interested to know how you and Jack know each other so well," said Douglas curiously.

"Oh, well, Donald on the train coming out," answered Gillis quickly.

"Come on, boys," cried Andy, "we'll drink to the new champ—to Donnie's health." Andy held his glass aloft. "Boys, I can't make much of a speech, as I 'ave only 'ad one drink. I stand up while we drink to our Donnie. I know that 'e's going to leave me, and that 'e's going to give up the boxin' gylm. I know that 'e's 'im in the 'abit of mind with the likes of me. I know that I'm lucky to be blackin' the boots of a man like 'im. But when I knows that 'e went into this fight to 'elp a poor little bloke like me out of an 'ole, I'm proud, boys, I'm proud! I've seen many a fight, and I've seen many a gylm man. But strike me blind if Donnie didn't this day teach me something about sheer grit. When 'e came stumblin' to me at the end of that—third round—"

"He stopped. "You know what 'appened," he continued in a husky voice. "I ask nothin' better'n to 'ave 'im for me pal. 'Ere's to the gylmest man that ever stepped in shoe-leather! 'Ere's to 'im! Andy turned quickly to light a cigarette. His eyes were moist. The room was silent.

Donald was deeply moved by his little friend's show of feeling. Douglas broke the silence. "I've got back to the Coast just in time, Jack."

"How's that?"

"Dad has started on the biggest job that he's tackled yet."

"What is it?"

"Do you remember the big tract of timber that he bought in the Cheakamus Valley?"

"Yes, he bought on my advice," answered Gillis.

"Well, he's going to run a railroad in and build sawmills, and saw the logs right on the spot instead of shipping them to the Coast."

"Good!" said Gillis heartily. "There's a wonderful stand of timber in that valley."

"But here's the best part of it," Douglas went on eagerly. "Dad's going to send you in to cruise the timber around Summit Lake, and I'm to go with you. It's a wonderful country. I was up there last summer."

He turned to Donald. "Will you go with us?"

"I'll be glad to," assented Donald.

"Good!" cried Douglas. "It will be fine camping with you and Jack."

Little Andy sat patiently listening to this lively conversation. In which he had been completely ignored. He could contain himself no longer.

"I s'y," he blurted, "am I such a blinkin' dwarf that you've forgotten that I'm in this 'ere crowd? I ain't me 'ad above the t'able? Where the 'all do I get off on this 'ere bloomin' picnic, I ask you?"

One look into the Australian's seriously comic face with its heavy blond eyebrows wagging up and down set Douglas into paroxysms of laughter. "Andy," he declared, "I'm going to take you along, even if we have to mark you 'excess baggage.' Can you cook?"

(To Be Continued.)

A GREAT PUZZLE TO CAREFUL PARENTS

One of the greatest puzzles to the careful parent is to know just what medicine to give the little ones. When the child falls ill with gripping pains; is seized with cold or fever, refuses food or vomits what he has taken, when he cries a great deal and cannot get the sleep so necessary to the growing child, the parent is at a quandary. What is to be done on such occasions? As often as not there is not a suitable medicine in the house. The puzzle is what to give him to set him right quickly.

It is such emergencies that Baby's Own Tablets were designed. These pleasant little Tablets quickly reduce fever, break up colds, relieve constipation and indigestion and allay teething pains. They quiet the nerves and promote a restful healthy sleep. Bring griefs and suffering absolutely harmless and safe for even the youngest and most delicate baby.

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Scientist Makes a Strange Discovery

Convinced That Human Body Has Radio Tuning Point

C. R. England, a research scientist of the Bell Telephone Laboratories, New York, says that after extensive experiments he was convinced of the soundness of his theory that the human body has a radio tuning point.

The tuning point of his body, he said, was 3.66 metres and was discovered accidentally while he was working on radio oscillators producing very short wave lengths. England explained:

Starting with five metres, he said he worked downward gradually and encountered difficulties when he went below four metres. A search for the cause disclosed that his body was working as a tuned circuit, he said.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother's Own Worm Expeller.

She: "I bobbed my hair to show my independence."

He: "What did you bob your skirt for?"

Better keep yourself clean and bright; you are the window through which you must see the world.

Good Business

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its use. Food and any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product, a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby; however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready; always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every drugstore has it.

INTERNATIONAL ORATORICAL CONTEST

Announcement is made that Alberta school students in Grades IX, X, XI and XII, whether in high school or public school continuation classes, will take part in the International Oratorical Contest (Alberta Division) in 1929. Alberta students first entered in the International Oratorical Contest last winter, and Miss Margaret Kinney, of Edmonton, was the winner. She was sent to Toronto for the Canadian finals, where she made a splendid impression. More than three hundred schools took part in the preliminary competitions in the last contest and it is expected that more than five hundred will take part in the preliminaries for 1929.

Winners in the individual schools must be determined on or by December 15th, 1928, and district winners on or by February 15th, 1929. The fourteen district winners in northern Alberta will meet in Edmonton during Easter week and the fourteen in southern Alberta will meet in Calgary the same week. The finals will take place in Edmonton a little later and in May the winner will be sent to Toronto for the Canadian championship.

The expenses of the district winners, who are to go to Calgary or to Edmonton, are paid by the sponsors of the contest in Alberta. These win-

ners also receive a \$10 gold piece and the runner-up in each district will receive a \$5 gold piece. The winner in the Alberta finals receives \$200 and a free trip to Toronto, accompanied by a chaperone if a girl, and the runner-up in Alberta receives \$50. Each school, producing a winner, is given two recommended books.

The contest is sponsored in southern Alberta by the Calgary Herald, and in northern Alberta by The Edmonton Journal. Roughly speaking, Lacombe is the dividing line of these sections.

There are no formalities connected with students entering, except that the coupon must be filled in and sent either to The Journal or The Herald. The contest is strongly endorsed by Premier Mackenzie King, Hon. R. B. Bennett and other leading Canadians, for two reasons—one, that it promotes among our rising generation facility in public speaking, and the other, that it spreads throughout the Dominion a sounder knowledge of Canada and Canada's future.

For the 1929 contest, four subjects are permitted the students, instead of one in the last contest. These subjects are: "Canada Among the Nations," "The Unification of Canada," "The Peoples of Canada" and "Canada's Economic Problem."

TO DISCUSS CO-OPERATIVE MARKETING OF COAL

"There is complete harmony among Alberta coal operators in their efforts to place Alberta coal in the Ontario market despite rumors to the contrary," said Howard Stutchbury yesterday afternoon at the conclusion of a meeting of operators of the Drumheller Valley at the Whitehouse hotel, at which Messrs. Dinning and McBain were also present. Mr. Stutchbury further stated that the Canadian Coal Publicity Committee would function for at least a further six months while plans had been approved for a further campaign in the east in the

near future.

A further meeting of Alberta operators is to be held in Calgary on Wednesday next when co-operative marketing of coal will be discussed.

Asked what action the operators proposed to take in their efforts to obtain reduced freight rates, to the east for a longer period, the Alberta trade commissioner announced that a resolution had been forwarded from that meeting to the Hon. Chas. Stewart, asking that trial shipments be extended to six months in each year commencing on January 15th next. He believed the Minister concerned was sympathetic to this measure and he was personally of the opinion that some concession would be granted in 1929. "A letter of appreciation had also been sent to the Alberta provincial government for their co-operation and assistance when costs of 1928 shipments were being figured out."

At the recent Canadian National Exhibition, orders for 100,000 tons of coal had been written up provided the shipments could be delivered at the logical time of the year. Great interest had been displayed by Ontario consumers in the Alberta coal exhibit, Mr. Stutchbury remarked, and he felt sure that, given reasonable facilities for placing the coal in the east during seasonable months, a steady and growing demand for Canadian coal would be felt.

Demonstrations have proven that Canadian lignite was as economical and far cleaner than the American product, despite the cut in prices and better grades which were now in evidence in Ontario, due to the introduction of competition. Mr. Stutchbury also remarked. During the past twelve months \$75,000 had been spent by American producers in publicity for the purpose of recapturing the Ontario market, but the consumers were grateful to Canadian operators, as improved service had resulted through their fight and undoubtedly the good-will created would react in favor of Canadian coal.

The publicity committee, composed of R. J. Dinning, W. W. McBain and Howard Stutchbury, together with the addition of L. A. Tupper, were elected unanimously—Drumheller Mail, October 25.

MERCHANTS WARNED AGAINST SALE OF ILLEGAL NOVELTIES

Merchants of Alberta are warned through the Retail Merchants' Association that it is illegal to keep for sale, offer for sale, or sell anything which is labelled or branded with the name of any kind of liquor. The warning was issued by R. J. Dinning, Alberta liquor commissioner, in a letter to the Association, which follows:

"Section 100a of the Alberta Liquor Act read as follows—

"No person shall expressly authorize by this Act to deal in liquor, shall within the Province keep for sale, offer for sale, or sell anything which is labelled or branded with the name of any kind of liquor, whether the same contains liquor or not."

"In recent months police officers have brought to our attention that novelties are being sold in this Province in the form of imitations of bottles of liquor, decanters and other containers bearing the words Scotch, Brandy, Gin and Rye.

"In view of the legislation referred to above, may we respectfully suggest that you ask your members to refrain from selling goods of this nature in Alberta. The retailer handling these articles is subject to prosecution, thus you will readily understand our object in writing you in this connection."

NOTICE TO THRESHERMEN

Owners or operators of threshing machines and combined harvesters are requested to send to the Department of Agriculture at the end of the threshing season a return showing the number of acres and the number of bushels threshed. This applies whether the machine has been used for custom work or only for the owner's crop.

Special forms for these returns may be secured from the PUBLICITY BRANCH, DEPARTMENT OF AGRICULTURE, EDMONTON.

**BLAIRMORE UNITED CHURCH**

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services for Sunday, November 4, he pastor in charge:
SENIOR SCHOOL at 11 a.m.

BOYS' WORK—The Institute of Manual Training and Home Art. A short course of ten lectures in "General Electricity," with special attention to Auto-Motive Electricity, is being held in the old Mine Office on Tuesdays. The junior class, those under 15 years, at 7 p.m., and the senior class at 8.30 o'clock. An entrance fee of \$1.00 is charged and the course is open to the general public of the Pass town.

LADIES' AID—The regular monthly meeting of the Ladies' Aid will be held at the Mission Hall on Wednesday next, November 7th, at 2.45 p.m.

Misguided Ambition

"How old is your son?" asked the visitor.
"Well," replied the dad, "he's reached that age when he thinks the most important thing to pass isn't his examination, but the car ahead."

Joint-Ease
For Stiff, Swollen Joints**RHEUMATIC OR OTHERWISE**

Says: "When Joint-Ease Gets In—Joint Aches Gets Out."

It was a high-class pharmacist who saw prescription after prescription fail to help hundreds of his customers to get rid of rheumatic aches and stiff, inflamed joints.

And it was this same man who asserted that a remedy could and would be compounded that would make creaky, swollen, tormented joints work with just as much smoothness as they ever did.

Now this prescription, richly named Joint-Ease, after being tested successfully on many obstinate cases, is offered through progressive pharmacists to the millions of people who suffer from ailing joints that need limbering up.

Swollen, twisted, inflamed, stiff, pain-tormented joints are usually caused by rheumatism; but whatever the cause Joint-Ease soaks right in, through skin and flesh and sets right to and corrects the trouble at its source.

Remember Joint-Ease is for ailments of the joints, whether in ankle, knee, hip, elbow, shoulder, spine or finger and when you rub it on, you may expect speedy and gratifying results.

It is now on sale at drugists everywhere for 60 cents a tube.

SHE HAD EXPERIENCE

He: "The roadster's running a little badly tonight."
She (cynically): "Yes!—A cylinder is going to miss in a few minutes, and we are just going to have to stop by the bend in the river up yonder, and no, I haven't any objection to just one little kiss, occasionally, but not from you, no, I'm not interested in the 'I got it from a friend who brought it back this summer' Scotch you have on your hip, an yes, I'm sometimes a prune, and no, I don't love you a wee, wee bit, and yes, I know my eyes are attractive, and I realize you don't say that to everybody—However, I will take one little drink and let you park for just a few minutes."

The Easiest Way

A Scotchman applied for a position as a patrolman on the London police force. Scotland Yard asked him this question:

"Suppose, McFarland, you saw a crowd congregated at a certain point of your beat, how would you disperse it quickly, with the least trouble?"

"I would pass the hat," answered McFarland.

Sauce For the Goose

There was another man who was hen-pecked.

His wife cornered him one day and said: "I'm sick and tired of hearing you refer to the car as your car. Hereafter, I want you to call it our car. I've got a half interest in everything you own."

That night he said to her: "Please, won't you patch our pants?"

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF WENCEL SULA, late of Blairmore, in the Province of Alberta, miner, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Wencel Sula, who died on the 7th day of August, A.D. 1928, are required to file with the undersigned Administrator by the 10th day of December, 1928, a full statement duly verified of their claims, and of any securities held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Dated this 24th day of October, 1928.

TRENHOLME DICKSON,
Official Guardian and Administrator of the Estate of Wencel Sula, Parliament Buildings, Edmonton, Alberta.

"What's the matter with your horse?" said the druggist.

"The old horse won't move," replied the farmer.

"Here, rub him with Painkiller," said the druggist.

The farmer went out, applied all the liniment and the horse dashed down the road. The farmer rushed into the store. "Quick, give me another bottle of Painkiller. I've got to catch that animal," he cried.

Died of Love

"I shall die," moaned the suitor, "unless you marry me."

"I am sorry, but I must refuse."

And then, to make his vow true, he died—43 years, 5 months and 10 days later.—Tit Bits.

In clean, bright Aluminum

A Contribution To Canada

Out of the writer of charge and denial and appeals to racial and religious prejudice which characterized the recent Arm River by-election in Saskatchewan one newspaper despatch from a special correspondent vividly impressed the writer of this column.

In the course of his journeyings around the constituency reporting the many meetings held, the staff correspondent of the paper in question had occasion to stop at the hotel in one of the smaller villages. The hotel was not of the usual type found in prairie villages. The rotunda he describes as "a bower of floral beauty," a close approach to a greenhouse. The ceiling was beautifully beamed and paneled, the proprietor having laid out five different plans for it before he felt satisfied. The hotel was scrupulously clean, the meals well cooked and nicely served by attractive help.

The correspondent was curious and he entered into conversation with the proprietor, one Kasper Haberlach by name. The secret of the beautiful woodwork was soon discovered in the fact that, in his youth, the proprietor had been a cabinet-maker, and had a love for fine woods and the beauty of fine lines. His love for the beautiful also found expression in his flowers. Raising his roses, Kasper Haberlach told how he came to Canada sixteen years ago, in his early manhood. Today he is the father to seven daughters and two sons, most of whom were born in Canada.

Proud as Kasper Haberlach is of his attractive hotel, it is his family in which he rejoices. Particularly is he proud of their school attainments. One of the Misses Haberlach led her school for three years in succession. The youngest girl, now aged seven, was sought by Chateau promoters a couple of years ago because of her talents as an entertainer. Kasper Haberlach, himself, speaks six languages fluently, but, says the correspondent, "I think he is probably most proud of the fact that his children all speak English indistinguishably from any other Canadian children."

Mr. Haberlach has a praiseworthy method of inculcating thrift in his family. His daughters help in the hotel. "I have always made it a rule," he said, "to pay my children wages daily for their help in the business, just as I would strangers. They are encouraged to save for education or business or whatever they desire."

Now what we find so encouraging in this whole story is that it seems to provide an answer to many good people who are greatly concerned over the subject of immigration. Here is a man from a foreign country, whose mother tongue is not English, but who, coming to Canada, brings with him an inborn sense of beauty, skilled craftsmanship, habits of thrift, high ideals of home life and citizenship, and a keen realization of the value of education, a man anxious that his children shall have the best that life can offer and determined that, to the full extent of his ability, they shall enjoy those privileges.

In this story from real life today, we also find a satisfactory answer for those who are inclined to question the efficiency of our school and educational system, and their ability to perform the task of largely assimilating new comers from other lands into our common Canadian family.

The fact cannot but be realized and accepted that Kasper Haberlach brought with him to Canada something of far greater value to this country than money, and that the contribution he is making to the upbuilding of this Dominion is something more than and far beyond the mere making of money through the management of a well regulated hostelry for the comfort and convenience of the travelling public.

In the evolution and development of the Canadian people we require all the beauty, all the craftsmanship, all the talent, all the thrift, and the full recognition of the real things of life, that all the peoples of all the world can contribute. In seeking more than and far beyond the mere making of money, even though that nation and people be the best in the world today. Our ambition is loftier than that; as a Dominion our ambition is to rise still higher, and to develop on this northern half of the American continent a type of citizen superior to all that have preceded us,—a citizenship that shall be God-fearing, healthy, industrious and happy, reveling in all that is beautiful in art, music, literature and nature, and finding a real joy and contentment in seeing our work well done.

And to all who have a contribution to make in working out this pattern of a strong and ideal Canadian citizenship, this Dominion should extend a wholehearted welcome.

Canada's Progress Steady

Growth Not Just a Boom Says Hon. James Macdonald

Canada is progressing steadily. By almost every standard that can be applied, her economic condition is becoming increasingly satisfactory as time goes on and the people are now at a very high level of national well being.

So says Hon. James Macdonald, minister of trade and commerce in the federal cabinet, in a report given

In England of the conditions now reigning in the Dominion.

"There is a sound basis of prosperity in this country," he says. "There have been no great booms unfounded on natural development or unjustified in the light of indications. There is an increasing possession of comforts and conveniences of life among the people of Canada—there is a sound credit in their banks. There is prosperity in the air and happiness in the homes of the Dominion."

"The amount of construction of new buildings throughout the Dominion in the last year has been phenomenal. This report shows. Yet there has been no outstripping of the needs of this rapidly developing commonwealth. The country is not as in the days of the boom period, which was climaxed in 1912, building up great railway lines in advance of population. Rather, construction in all lines is proceeding in response to our needs. It is a healthy progress."

Paul—"The doctor has prescribed rest and change for me."

Paula—"Well, why are you so gloomy about it?"

Paul—"He advised me where to get the rest, but he didn't tell me where to get the change."

New Serum For Burns

Recent Discovery Leaves Skin Un-Molested Surgeons Are Told.
A new method of treating burns, causing quick healing with absence of scars, discoloration, or other blemishes, was described before the convention of the National Association of Police and Fire Surgeons and medical directors of Civil-Service Commission.

The method, as detailed by Dr. Stephen R. Montell, of Nyack, N.Y., and discussed by Dr. John J. White, of New York, involves the use of "normal horse serum" made from the blood of horses under a "lately discovered method. The serum is sprayed with an atomizer on the burned skin surfaces and it is said has produced astonishing results."

TO THE MOTHERS OF ALL PALE GIRLS

If Your Daughter Shows Signs
Of Anemia a Tonic Is
Needed

Anemia is simply a lack of blood. It is one of the most common and at the same time most dangerous troubles from which growing girls suffer. It is common because the blood is so often becomes impoverished during development, when girls often overwork and overstudy. It is dangerous because of the asthenia of its approach and because of its tendency to grow steadily worse. Every growing girl should occasionally take a tonic to ward off this insidious trouble. It is because of their powerful action in rebuilding the blood that Dr. Williams' Pink Pills have made world-wide reputation. The case of Miss Claire Sullivan, Pincher Creek, Alta., amply proves the value of this medicine. Miss Sullivan says: "During my school days I suffered a great deal from thin and watery blood. I was continually weak and tired; my appetite was poor, my sleep unrefreshing and I was troubled with backaches. To make matters worse I was attacked with acute appendicitis and the operation left me in a very weakened state. My mother, hearing of the value of Dr. Williams' Pink Pills, had me take them and after using them for some time I can say the result was simply wonderful, as they completely restored my health, and now when opportunity occurs I always recommend these pills to weak, pale girls suffering as I did."

You can get the pills from your druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Giant Guns For Naval Base

Constructed As Experiment During War But Never Used

Three giant guns constructed experimentally during the War have arrived at Singapore from England, to form part of the naval base's defense. They are 18-inch weapons nearly thirty feet long, which weigh 150 tons each and fire a 3,333 lb. projectile. These three guns were the only ones of their kind constructed. They were mounted on naval units for use in bombarding German positions, but the war ended before they could be effectively employed.

Many children die from the asableness of worms, and the fact that mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powder. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

Ship Live Mink To France

E. Swain, of Larsen, a small station on the Sioux Lookout branch of the Canadian National Railway, was in Port Arthur recently delivering to the express office a shipment of ninety live mink for transportation to France, where they will be used to stock a fur farm. Mr. Swain sold the mink f.o.b. Port Arthur, and on delivery drew in payment \$7,500 for the 90 animals.

Restored to Health by
Lydia E. Pinkham's
Vegetable Compound

Port Elgin, N. B.—"For three months, I was nervous and weak with tired feelings and no energy. A friend advised me to take Lydia E. Pinkham's Vegetable Compound and I did. I have got good results from it and I recommend it to others."—L. E. TAYLOR, Port Elgin, N. B.

The Dependable medicine is sold by druggists everywhere.

VITAMINS

Everyone needs them to support growth or to protect the body against germ-infection.

Scott's Emulsion

abundantly rich in vitamins is of great importance in all run-down conditions of the body. Scott's Emulsion builds strength.

Scott & Bowne, Toronto, Ont. 25-61

Result Of Experiment

Will Be Interesting

Psychologists Study Effect Of Noise On Human System

"City" rats and "country" rats are being raised at Osgate University, Hamilton, N.Y., and the "city" rats are developing nervousness.

The effect of noise on health and activity is what Dr. Donald Laird, head of the psychology department of the university, wants to discover. All the rats are free from molestation by cats and the consequent nervous strain.

By exposing the rats to varying conditions of sound, or lack of sound, Dr. Laird hopes to determine definitely the effect of noise on human beings.

Rats are used in the experiments because Dr. Laird explains they live 30 times as fast as men and in one year their growth parallels the growth and development of a human being in 30 years. The rats in this experiment are white.

The "country" rats are kept in a sound-proof room while the "city" rats are housed in a room containing a tuning fork operated by electricity. The tuning fork is said to produce sounds approximately the noise of a busy city.

Food containers and food are the same for both groups so that differences in feeding may not account for any differences which develop in the nature of the two groups. The health of the rats is carefully guarded. Both groups are given an ultraviolet ray bath once a week to prevent rickets.

The rats have been under observation for eight months and Dr. Laird reports that the "city" rats, exposed to noise, have shown signs of nervousness and loss of appetite.

An Oil For All Men.—The sailor, the lumberman, the householder, the laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, draw wounds, rub aching limbs and overcome rheumatism. Therefore, it should have a place in all home medicine cabinets and be amongst those taken on a journey.

Manitoba Hydro Extensions

Comprehensive Plan For Extending Electrical Power To Cover Rural Districts

An extensive hydro development programme which would bring electrical power to practically every town in Manitoba and to farms where by use of electricity in its many ways the drudgery of rural life could be eliminated, was outlined by Hon. Donald G. McKenzie, newly appointed minister of mines and natural resources, in an address at Virden, Man.

Mr. McKenzie, who will be in charge of the provincial government's hydro development plans, outlined the programme at a meeting of the United Farmers of Manitoba. Brandon District.

Mr. McKenzie announced that the government has decided to present legislation providing for the payment of one-half the capital cost of all transmission lines, including a line to Brandon; new lines to all towns in Manitoba; all farm lines, and lines already constructed.

The legislation will also provide facilities which will permit of the construction of transmission lines to all parts of Manitoba within seven years. Under the plans, very low rates are assured, said Mr. McKenzie, for the rural users of power.

Taking No Chances

The small office boy ran into the manager's office with excitement. "Oh, sir," he cried, "a man's father through the coal hole."

"All right," replied the boss, "just put the lid on him while I get a policeman. We'll charge him with stealing our coal in case he sues us for damages."

Irish Priest (addressing damaged invalid): "I'm going to pray that you may forgive Casey for having thrown that brick at you."

O'Leary: "Mebbe yer Riv'rence 'ud be saying 'twice if ye'd just wait a bit. O' get well, and thin pray for Casey."

Minard's Liniment Heals Cuts and Bruises.

Manitoba Sanatorium

Sale Of Christmas Seals To Be Held This Year To Help Along the Good Work

The Manitoba Sanatorium at Ninette, Man., is launching again this year its sale of Christmas Seals. The Christmas seal fund last year made possible the purchase of a portable X-ray outfit, and, up to September last, financed the general expenses of twelve "missionary journeys" for the examination of people who had been in contact with tuberculosis, or who were suspected, or had symptoms. Three thousand people were examined, all known to be "contacts" or "suspects," a work very much worth while.

The 1928 seal money will be used to continue and extend this work and may also help with a very special work—to provide sanatorium care for children. The Province of Manitoba has not one but especially provided for a tuberculosis child. There are children definitely ill, and children under par and infected who will soon be ill. To care for these sick children, to build up the almost-sick children into health and prevent their lapse into disease, is one of the best of all good works. Seals may help to do this. Prevention is better than cure, cheaper and more joyful in every way.

Christmas Seals are sold in sheets of 100 for \$1.00, a seal for a cent. You can assist greatly in a most worthy cause by purchasing a sheet of these seals, and use them on all letters sent out during the Yuletide season. Those willing to help may obtain these seals by writing to the Manitoba Sanatorium, at Ninette, Man. Dr. David A. Stewart is the medical superintendent.

An Oil That Is Prized Everywhere.—Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Suggest Shorter Names

Paris Society Has Idea It Would Mean Great Saving

The Society for the Saving of Time, a newly founded French efficiency organization, is for the shortening of names.

The group would like to see Parliament pass a law limiting family names to five letters and Christian names to two. They figure that in the business world alone millions of dollars could be saved annually in salaries of typists and wear on machines if names were held down.

They suggest that Jo., Ed., Al., Lu. and Jk. are just as high sounding as Joseph, Edward, Albert, Lucien and Jack.

Minard's Liniment For Backache.

"Science has added years to the average life, but it has also produced the motor car that will travel 50 miles an hour.

Beautifying Station Grounds

Great Interest Taken In Gardens Along Lines Of Canadian Pacific Railway

Interest in station gardens along the Canadian Pacific Railway this year has been greatly stimulated by an increased prize list, and the results have been exceptionally gratifying. G. A. B. Krook, chief horticulturist, with the assistance of the superintendents, has just finished judging the general excellence of the gardens making this a difficult task. In each of the four districts a general prize for the best kept garden has been awarded, two in each division for the old visible gardens, one for new visible gardens, one for old and new invisible garden, and special mention made of those considered worthy. Fourteen prizes were awarded in the Manitoba District, with 15 specially mentioned; 12 prizes awarded in Saskatchewan District, 10 specially mentioned; 13 prizes in Alberta with one specially mentioned; and in British Columbia, 16 prizes with no special mention.

The prizes for best garden went to W. A. Hooper, section foreman, Minnedosa, for the Manitoba District; to Chas. W. Chapin, locomotive watchman, Strathburg, for the Saskatchewan District; to D. Skram, section foreman, Carstairs, in Alberta District; and to T. W. Bundy, agent at Erickson, in the British Columbia District.

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing; but to be safe-guarded for the future is even greater. Not only does Dr. J. D. Rolfe's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Symptomatic inhalation of smoke of fumes from the remedy prevents re-attacks and often effects a permanent cure.

Crossed English Channel In Balloon. Blanchard, with Dr. T. E. James as passenger, was the first to cross the English Channel by balloon, and Colonel Fred Burnaby a century later (1882), the second.

"So your wife has left you?"
"Yes, about four days ago."
"What did she say when she went?"
"Is my hat on straight?"

FOR NEURALGIA

You doubtless depend on Aspirin to make short work of headaches, but remember that it's just as dependable an antidote for many other pains! Neuralgia? Many have found real relief in an Aspirin tablet. Or for toothache; an effective way to relieve it, and the one thing doctors are willing you should give a child—of any age. Whether to break up a cold, or relieve the serious pain from neuritis or deep-seated rheumatism, there's nothing quite like Aspirin. Just make certain it's genuine; it must have Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin does not harm the heart, the fact is that Aspirin is the only medicine that will be stamped with their "Bayer Cross" trademark.

A Preventative

For preventing stiffness and further pain from sprains and hurts of any kind use Minard's.

WOMEN!

If you are suffering from any of the ailments of womanhood, such as irregular menstruation, pain during the period, or any of the other troubles that afflict the fairer sex, you will find relief in the use of Minard's Liniment. It is a powerful and reliable remedy for all the above troubles, and it is also a good preventative for all the ailments of womanhood.

W. N. U. 1757

NEW LEAGUE OF GREAT POWERS NOW PROPOSED

Colorado Springs, Colo.—A new League of Nations composed of great powers only and including the United States, was proposed by Ralph D. Blumenthal, editor of the London Express and head of the British Journalistic Mission touring this country under the auspices of the Carnegie endowment for international peace.

The present League of Nations, he said, has become hopelessly ineffective and a danger to international relations.

Blumenthal said the League was hampered by its own cumbersome constitution and was now a "germ carrying talking machine, an overgrown bureaucratic debating society which is a fulcrum for every crank idea."

In its place, he proposed a League of Nations which would be the result of spontaneous agreement between Great Britain and the United States, without elaborate treaties. Each of the powers, under his plan, would keep order among the minor states.

"There's no country in the world that wants peace so much and so ardently as Great Britain," said the London publisher. "Great Britain still feels her enormous losses in men, money and material and the disruption of generations of trade connections through the world. She wants a chance to recover from the catastrophe that not only overtook her but the rest of the world."

B.C. Heads Winners

Canadian Egg Laying Contest Just Completed At Ottawa.

Ottawa, Ont.—Fourteen hundred hens have just completed 51 weeks laying in the Canadian and Ontario laying contests at the experimental farm here. Premier bonuses in the Canadian contest go to a pen of White Leghorns owned by T. H. Haywood, of Langford, B.C., the ten-hen laying 2,574 eggs for a total of 2,829.4 points. W. Bradley, owner of the second pen, White Leghorns, also hails from Langford. His birds laid 2,245 eggs and secured 2,230.2 points. Ontario claims third place through another pen of White Leghorns, owned by J. H. Jackson, of Port Dover. This pen laid 2,100 eggs and scored 2,173.3 points.

The 800 birds in the Canadian contest laid 131,999 eggs in the 51 weeks, which now constitutes the contest year.

Arm River Election

Dr. Waugh, Liberal Candidate Wins By Narrow Majority

Regina.—The government candidate, Dr. J. T. Waugh, captured the vacant seat in the Arm River by-election, having a majority of some fifty odd votes over his opponent, Stewart Adrian. Owing to the favorable weather and the unprecedented interest taken in the by-election, the heavy vote was polled. The total number of voters on the list is in the neighborhood of 6,000, and the total votes polled amounted to 5,517, or 91 per cent. of the possible vote.

Fight With Wolf

Chicoutimi, Que.—A wolf, driven from the woods by hunger attacked a 70-year-old farmer, Joseph Girard, a resident of Ste. Rose de Lima, Saguenay district. Ten minutes after he had grappled and fought with the animal, the septuagenarian won the fight and the wolf lay dead. The man's only weapon was a staunch stick.

Earning Living In Circus

Paris.—The newspaper Paris Midi said that Alexander Subkoff, youthful husband of Princess Victoria Schuumberg-Lippe and a brother-in-law of the former Kaiser, was under contract to play in a cavalry act in the Paris ring in the winter.

Decline In Unemployment

Ottawa, Ont.—There was a further small decline in unemployment at the beginning of October, when, 6,627 employers had staffs aggregating 998,551 persons as compared with 1,003,601 the preceding month.

Postpones Pacific Flight

Tokio.—Baron Gunther Von Huenfeld, who recently completed a flight here from Germany, said he considered the season too late to attempt a flight across the Pacific. He was undecided how he would return to Germany.

W. N. U. 1767

Overcomes Gravity Force

Strange Claims Made In England By Young Scientist

London, Eng.—R. H. Tate, young scientist, claims to have overcome the laws of gravity, according to despatches recently from West Hattiepool to the Daily Express.

The experiment was demonstrated in a secret laboratory test, when a piece of metal—absolutely unattached to anything—was suspended in mid-air, the despatches said.

Tate placed on the floor the metal which was said to resemble aluminum but was of a composition—here-to-for unknown, and placed a similar piece of metal above it in the air. The top metal remained suspended—not for just a moment, but for as long as Tate left it there.

"I have eliminated the force of gravity," Tate said. "The metal is not insulated and it is thought that the practical possibilities of the discovery are apparent. I have discovered the new force from known forces, by eliminating gravity from the metal. The composition of the metal is known only to myself, but among its possibilities is the controlling of aircraft from the ground."

Experts said that, if true, the discovery would be the greatest in centuries.

Straits Clear Of Ice

No Ice Yet Reported To Be Seen On Hudson Straits

Ottawa, Ont.—No ice is reported in Hudson Straits, according to the latest radio message from the wireless stations there. A few icebergs and growlers have been seen, while there is a thin layer of ice on the lake shores, but in the seaway proper, the ice has not yet appeared. The Canadian government steamer, Montcalm, with the party in charge of Major N. B. McLean, of Ottawa, is at present lying off Button Island, at the extreme tip of Labrador. Major McLean will remain there until all navigation in the straits has been closed.

The string of wireless stations along the straits and on to Churchill, are in close touch with each other, and with the Federal Department of Marine and Fisheries in Ottawa. Wireless developments have been added to by the establishment of a private station, at Mistake Island, 150 miles north of Port Churchill, by the North American Mining, Exploration Company, and another station has appeared at Baker Lake, in from Chesterfield Inlet.

New Elevator Opened

Members Of Prairie Wheat Pools Attend Ceremony At Port Arthur

Port Arthur, Ont.—Pool terminal elevator number seven, the world's largest single unit elevator, with a capacity of 7,200,000 bushels of grain, was officially opened in the presence of forty members and directors of the Saskatchewan, Alberta, and Manitoba wheat pools.

A. J. McPhail, president of the Saskatchewan Co-operative Wheat Producers, Ltd., officiated at the opening and with him were C. H. Burnell, president Manitoba Pool Elevators, Ltd., and L. D. Newitt, president of the Alberta Pool. The elevator is owned and operated by the Saskatchewan Pool Elevators Ltd., with headquarters at Regina. The building is 1,100 feet long, has 225 storage tanks, and 558 lift-spaces and outer space bins. The tanks are 125 feet high and the work house is 210. The work was done in the record time of 149 days from the time the first concrete was poured.

Sir Arthur Currie In France

Montreal, Que.—Sir Arthur Currie will not resume his duties as principal of McGill University for about two months, according to a cable received at the office of acting principal, Dr. Charles Martin, Dean of the medical faculty. It is now expected Sir Arthur will return shortly before or during Christmas season. He has fully recovered his health and at present times is continuing his vacation in the south of France.

May Have New Trial

Toronto, Ont.—Hon. W. H. Price, attorney-general for Ontario, announced that the Crown would bend every effort to facilitate any action undertaken by Wm. Hestings, of London, who was recently sentenced to prison for five years on a charge of manslaughter, towards securing a new trial, or securing his release on bail pending a revision of his case.

Chinese Found Guilty

Carlisle, Eng.—Chung Yi Miao, young Chinese law student from New York, was found guilty of the murder of his bride, Wei Sheng Miao, here and was sentenced to death.

Wheat Pool Makes Denial

Are Not Holding Up Wheat Shipments In Order To Raise Prices

Winnipeg, Man.—E. B. Ramsay, secretary of the Manitoba Wheat Pool, has denied charges that the Canadian Wheat Pool is holding up shipments of wheat, and thus increasing the cost of flour and bread in England.

"Nobody in Canada is satisfied with the present level of wheat," declared Mr. Ramsay. However, we are not retarding shipments, but on the other hand, are not free sellers on the present price level," he added.

From the point of view of the Canadian farmer, Mr. Ramsay continued, the prices are considered too low at present and "we find that the non-pool members are also of the same opinion." The non-pool members, he added, are storing their grain, awaiting acceptable prices.

World's Record Cow

Saskatchewan Cow Holds World's Championship As Butter Fat Producer

Moore Jaw.—According to official figures received here a Saskatchewan cow now holds the world's championship as a butterfat producer.

She is Canary Korydye Alcarin, owned by Ben H. Thompson, Boharm, who is famed throughout western Canada for his livestock records. During the official test period of 305 days the cow produced 1,080 pounds of butter fat, which is 1,066 pounds higher than any previous record.

Also during the official test period the champion cow produced 26,396 pounds of milk, which gave an average butter fat test of 4.04. The cows was milked three times a day, and was fed on feed grown on Brae-pura Farm, Boharm.

WOULD SHIP MARITIME COAL BY BAY ROUTE

Winnipeg, Man.—Maritime provinces were considering the possibility that Maritime coal could be shipped to western Canadian points through Churchill on the completion of the Hudson's Bay Railway, Hance J. Logan, K.C., of Amherst, N.S., newly appointed director of the Canadian National Railways, stated here.

Mr. Logan said that serious opposition to the Hudson's Bay Railway project had never developed in the Maritimes and there was a feeling which he shared that whatever might be the success of the route for grain shipments the development in mining and colonization which it would encourage, would justify its construction. It had been one of the fortunate aspects of railway construction in Canada that some development had always taken place to justify the work.

Those interested in shipping Maritime coal to Churchill believed that many grain boats would be going back to the Bay which could stop at Sydney, Cape Breton and take on loads of coal.

Mr. Logan said Canadian National officials would confer with the Canadian Pacific Railway with respect to the Peace River Railways as soon as Sir Henry Thornton returned from England. He was convinced, he said, that the Peace River District formed a very important part of Canada and he hoped the "negotiations would be successful." He had been asked about the likelihood of the C.N.R. joining the C.P.R. in the ownership of the Alberta Northern Lines. Sir Henry was expected back during the next two weeks.

COLONIZATION PROBLEMS

COL. J. S. DENNIS, C.M.G.

Chief Commissioner, Department of Colonization and Development, Canadian Pacific Railway, who, for over fifty years, has been active in Canadian land settlement. An outstanding authority on Canadian immigration and colonization problems, he has recently concluded important plans with the British Government for the movement of British settlers to Canada.

Planning New Air Routes

Russia Wishes To Supplement Inadequate Railroad Service

Moscow.—More than 5,000 miles of air lines will be opened in Soviet Russia next spring by the Soviet Air Transportation Company—"Dobrovol". The planning work is under way. The lines in every case are being laid out to supplement inadequate railroad service in the east and southeast.

Siberia, for the first time, will be connected with the European network of passenger and mail air routes, which now extend to Moscow. A daily service, 2,000 miles eastward to Irkutsk, near the Mongolian border, will be started in May in co-operation with the German Luft Hansa. With night flying, the distance will be covered in from 26 to 30 hours. It now takes five days by train.

Another air line will connect Alma Ata (where Lenin Trotsky is in exile) with Novosibirsk over the route of the uncompleted Turkestan-Siberian railway. Several new lines are planned in the Volga Valley. German Junkers planes will be used up to all the lines.

Federal Assistance Needed

Premier Talmie Of B.C. Thinks Government Should Aid In Building Roads

Vancouver, B.C.—The Federal government should again initiate the policy in effect between 1919 and 1925 whereby the provinces could earn grants of assistance in building trunk roads, Premier S. F. Talmie, said in the course of an address to the Vancouver Board of Trade.

The Premier said it was time the Federal government recognized the trend of modern times and give assistance to the provinces in the matter of roads. The Dominion government, he remarked, through the post office and other departments was one of the biggest users of roads.

Four Killed In Plane Crash

Tucson, Ariz.—Four youths are dead here following a crash when a Ryan Broughman monoplane plunged against the side of a mountain while in full flight. The crash occurred when the plane, soaring over the Catalina mountains in search of Bill Ryan, 18, reported there, hit an air pocket. The ship caught fire after crashing and was demolished. Its occupants were burned to death.

Holding Swine Club Tests

Winning Teams Will Go To Royal Winter Fair

Winnipeg, Man.—Preliminary arrangements have been completed by the Canadian National Railways for the interprovincial boys' and girls' swine club competition, which will be held on November 21, at the Royal Winter Fair, Toronto. Six provinces will be represented this year and the results of the provincial competitions will decide the teams which are to go to Toronto.

Teams from each province will be the guests of the National system during the week of the Royal Fair, and the entertainment of the boys and girls will include a trip to Niagara Falls and a visit to the Donalds Farms, just outside of Toronto.

In the past two years teams from Roland, Manitoba, have won and successfully defended the W. D. Robb Trophy, which is emblematic of interprovincial championship. The cup is held by the winning team for one year. Gold medals are presented to the winning team from each province.

Will Dredge For Gold

Syndicate Will Operate On River Near Medicine Hat

Medicine Hat, Alta.—A syndicate composed of local men, assisted by Vancouver and United States capital, has leased millions of river front below this city and is conducting tests preparatory to dredging the gravel for gold. Some thirty years ago there was considerable activity of this nature along the river, the old hand panning process being followed with returns averaging four dollars a day for experts. George L. Holms, San Francisco engineer, is in charge of the tests.

JOURNALISM OF TODAY IS OF A HIGH STANDARD

New York.—Frank H. Noyes, of the Associated Press, told a group of representative industrialists here that newspapers as a whole were "worthy of the confidence of their readers."

Speaking at the fifth annual conference of major industries held at Columbia University, Mr. Noyes said he thought everyone familiar with journalism in the last fifty years would agree "that in accuracy of statement, in breadth of information, in ethical standards, there had been a steady progress upward."

Mr. Noyes, appearing as the representative of the publishing industry, said that the reports of newspapers and press associations did contain "many inaccuracies" since they were the products of human beings, but he gave assurance that "the intention is to fairly and accurately depict the situation described."

He defended modern journalism against forms of attack and criticism, which he said were unjust and unwarranted.

"As it is I am serenely conscious of the fact that we are doing our level best day in and day out, to keep in the middle of the road, having no partiality for any party and church, any economic theory or any cause or man whatever, and on the other hand no hostility to any of them."

"I know that this is true of the Associated Press, and I believe it is also true of the other large press associations."

"There have been venal newspaper men as there have been venal doctors, lawyers, business men and even venal politicians, but God be thanked that the newspaper crooks are few and far between."

REPORT ON WORK AT CHURCHILL FOR THIS SEASON

Ottawa, Ont.—The department of railways and canals soon will issue a statement giving full particulars of the season's work at Port Churchill. S. W. MacLachlan, chief engineer of the department, has just returned from an inspection tour and the statement will be based upon his report.

It is understood that the construction on the harbor works is proceeding and the entire program for the season was accomplished.

The port will not be ready for shipping as quickly as the railway, but this is said to be unavoidable unless the government spends a large sum of money in overcoming the difficulties in building due to the present inaccessibility of the harbor.

When the railway is completed it will be easier to take in supplies and workmen.

There were no accidents this season and the department is pleased with the progress being made.

Five Thousand Miners

Remaining In Canada

Have Until February To Return Under Special Arrangements

Winnipeg, Man.—Of the 8,500 British miners who came to Canada this year to work in the harvest fields under government auspices, 3,800 have returned home, according to officials concerned in their handling.

A considerable number still are in Winnipeg waiting for jobs in their various trades, while farm places—places for those still in Canada have been arranged in many cases.

The special arrangements under which the men were brought over permit their return to the Old Country up to next February, after which official responsibility will cease.

Would Use Submarine

To Explore Antarctic

Wilkins Hopes To Have Assistance Of British Government

Montevideo, Uruguay.—Antarctic exploration by submarine is a possibility which is being considered by Sir George Hubert Wilkins. He spoke of this just before he sailed from here on the Whaler Hektor for Deception Island, where he intends to establish a base for exploration by air and sea to the Antarctic.

He indicated that it might be two years before he was ready to undertake the submarine exploration and that he hoped the British Government would then be willing to aid him. The best would be used to gather data on ocean currents and sea life and chemistry.

Clean Law Administration

British Columbia Will Not Resort To Use Of "Stool Pigeons"

Victoria, B.C.—"Stool pigeons" must not be employed by British Columbia provincial police under a policy which is being adopted by the police, attorney-general.

"The police of this province are going to operate on a clean, above-board basis and the use of stool pigeons will never form a part of their methods," Mr. F. H. Hickey, attorney-general, said.

"The police will never use agents to persuade persons to break the law in order to get convictions. Practices of that kind cannot be tolerated."

Want To Find Owners

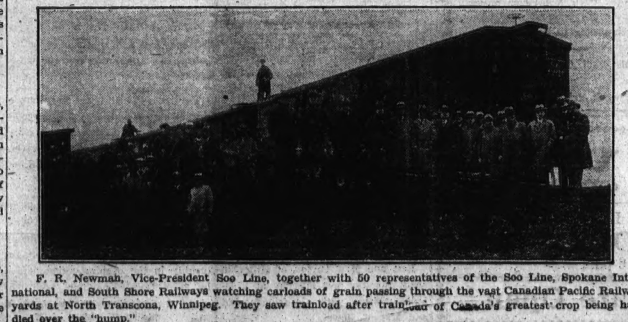

Philadelphia.—The United States government has joined forces with District Attorney Monaghan, who is directing the grand jury investigation of rum runners and police corruption, in his efforts to identify the mysterious owners of 18 bank accounts, totalling nearly \$12,000,000. Monaghan believes the money was deposited by bootleggers, and the federal government wants to determine whether income taxes were paid on funds.

U.S. Residents Here Can Vote

Toronto, Ont.—United States citizens resident in Canada have the right to exercise their franchise in the approaching presidential election, it was stated at the Toronto consulate here. They will be permitted to vote at the various United States consulates throughout the Dominion.

Ottawa.—An official inquiry into the wreck of the Western Canada Airways plane, which took fire following a crash near Calgary, will be instituted by officers of the High River air station, it was announced by the Department of National Defence.

INTERESTED IN HANDLING OF GRAIN CROPS

F. R. Newmah, Vice-President Soo Line, together with 50 representatives of the Soo Line, Spokane International, and South Shore Railways watching carloads of grain passing through the vast Canadian Pacific Railway yards at North Transcona, Winnipeg. They saw trainload after trainload of Canada's greatest crop being handled over the "hump."

Not What Teacher Meant

An English lesson was being given in a foreign school, and the mistress asked if any pupil could make up a sentence containing the words "defence," "defeat" and "detail."

The sentence she got was as follows: "Yen a cat jumps over defence, defeat goes over in front of detail!" —Blue Book.

The appointment of Joe Korzyński, of Vulcan, as dispenser at the university hospital, Edmonton, has been announced. This is a recognition of merit and an honor which comes to the high man of the class.

Miss Edna Fisher, who is teaching at Olin Creek, was home over the week end.

COWLEY HAPPENINGS

Mr. and Mrs. Ralph Easterbrook motored to Calgary on Wednesday. They were down to attend the wedding.

A grand concert will be given here on November the 2nd, under the auspices of the Women's Auxiliary, proceeds to go towards the upkeep of the church.

A pretty wedding took place on Wednesday afternoon at the home of the bride's parents, when Ruth Irene, only daughter of Mr. and Mrs. J. K. Hetherington, became the wife of Cecil Easterbrook, fifth son of Mrs. E. S. Easterbrook. Rev. Mr. Wright of Bellevue, officiated. The bride, who entered on the arm of her father to the strains of the wedding march, played by Mrs. Bruce Bouthiller, was charming in a gown of mauve, with the conventional bridal veil, which was held in place by a wreath of orange blossoms, as she stepped beside the groom, carrying a bouquet of carnations. The picture was complete when they stood together under a white wedding arch, which was also tastefully decorated. Little Marjorie Cleland was dainty in a dress of pink crepe de chene as flower girl, as she bore the wedding ring to the altar. After the ceremony, a sumptuous repast was served to around 80 guests, when immediate members of the families gathered around a table which was daintily spread, while the remainder of the party were served to a buffet luncheon, after which the bride appeared in travelling attire of navy coat and hat to match. The young couple left for their honeymoon trip to Spokane by motor.

replied, "but I'd rather you did the courting yourself."
"Madam," he said, sternly; "this is no time for fooling; the Justice is waiting."
"The Justice?" was the final answer. "Well, I suppose I must go but it's all so sudden, and besides I'd much prefer to have a padre do it."

Mr. Robt. Gray was a business visitor to Calgary and Edmonton over the week end.

Sale of Work AND HOME COOKING

Under auspices of O.E.S. — Lodge Hall, Blairmore
Wednesday, December 5
From 3 to 6 p.m.

Keep This Date Open!

Rev. and Mrs. Taylor, of Hillcrest, spent the day last Tuesday at Fiddlersburg, visiting with old friends, Mr. and Mrs. C. Jewel.

Local and General Items

Mr. A. Muts is down from Vulcan this week.

Among those in attendance at the meeting were: Grand Keeper of Records and Seals, William Bannan, of Medicine Hat; Past Grand Chancellor Hartley, of Lethbridge; Grand Master of Eschequer Taylor, of Calgary; Dr. Thompson, W. S. Beattie, E. Craddock and W. A. Levitt, of Lethbridge. Following the degree work, hot dogs and coffee were served, and the meeting was addressed by the grand lodge representatives and others. Several carloads of Pythians were in attendance from Blairmore and Michel.

NAVY LEAGUE AIDS MERCHANT-MARINE

The Rev. Fred Cooke, organizing secretary of the Navy League, who has been in Blairmore collecting subscriptions for Canada's national magazine of yachting and shipping and donations to the Navy League of Alberta, wishes to thank the citizens for their assistance, \$41.00 being raised in the town for the Alberta division.

The Navy League assists the widows and orphans of the men of the merchant marine, since they do not receive assistance from the government. The league also looks after the sailors' home and institutes in all the Canadian ports and attends to the welfare of the seamen while they are ashore. In addition to this, the league trains young men and boys, helping to make better Canadian citizens of them.

The Alberta division is required to raise \$8000 as its quota of the \$250,000 budget of the Navy League. It is hoped that this amount will be raised as quickly as possible, with the combined assistance of the people throughout the province.

The Sailor Magazine is fast becoming one of the leading Canadian magazines and it should be in every home and institution. Subscription renewals, and donations to the Navy League, can be sent to V. J. Ward, secretary, 630 Fifth Avenue West, Calgary.
